Please describe why you are requesting an 8th class or an Early Bird class. (If you need additional space, please use back of form.)

I understand that enrollment in an 8th class may eliminate the SRT in my schedule. Because many Student Services activities are scheduled during SRT, these activities will not be available to me. I will take responsibility for scheduling individual appointments with my counselor for registration, college applications, etc. during my lunch or before or after school at a mutually available time.
